Follow Me

IPitomy Find Me feature allows callers to be called at the number they are at no matter where they are. Use Find me to locate you at any number of phone numbers or extensions. Numbers can be called simultaneously as a group[or individually one at a time until answered. This is great for mobile employees and groups such as technicians on call and employees in the field who need to respond ro real time dispatch calls.

Find Me can be used with or without call screening so you know who is calling before answering.

Administrator View - Follow-Me Settings / Extension 100

Options

☐	Play the Incoming message to Caller before starting search.
☐	Record the Caller's name and play it to You.
☐	Play the Unreachable message if You could not be found.

Add 12   seconds to total search time so Caller has time to listen & record.
